EXIT

TRANSITION IS CLEAR WITH MODERNFOLD GWS MOVABLE GLASS WALLS

Create an open floor plan and provide natural light with a Modernfold Glass Wall System. Architects and interior designers can include the elegance and confidence of glass in their corporate, retail, and entertainment projects. Standard systems come with clear glass. For custom specifications, you can choose from a variety of options. For your next project, explore the possibilities of clear space division with Modernfold Glass Wall Systems.

- Standard Movable Glass Wall System comes with clear glass
- Standard glass options include frosted, low-iron, and markerboard glass
- Custom glass solutions are available
- Maximum height is 120-inches (3048 mm)
- Maximum panel width is 48-inches (1219 mm)
- Maximum panel weight is 330 pounds (150 kg)

COMFORTDRIVE®

AUTOMATED SELF-DRIVING PANEL SYSTEM

Convenience and automation are two highly desired features of movable walls. The ability to simply press a button and your space is automatically divided into a variety of pre programmed layouts correctly and efficiently every time is what users desire in today's hectic world.

The ComfortDrive® Automated Self-Driving Panel System from Modernfold does just that. Providing outstanding convenience and flexible space utilization

- Fully automatic operation at the push of a button
- Easy operation with user friendly touch pad
- High level of safety ensured by an integrated monitoring system that stops and reverses the panel on contact with an obstacle

with the beauty and daylighting benefits of Compactline® glass panels.

With ComfortDrive®, Compactline® glass panels can be moved to a variety of individually pre-programmed positions under fully automatic control. The control interface takes the form of a user-friendly touch pad which can be programmed to maximize your space in a variety of applications.

- UL® 325 safety-tested and certified
- Panels individually programmable for custom configurations
- Up to 30 panels per partition system

COMPACTLINE® GIVES SLIDING PARTITIONS THE PROFILE THEY NEED

By providing large glazed areas with distinctively curved transitions top and bottom, the Compactline® arc adds harmony to the overall appearance. The door closer is also integrated as a concealed unit for the ultimate in aesthetic perfection.

- Straight line, angled, or segmented configurations
- No visual interruptions due to continuous glass frontage
- Full wall panels with corner and angled panel layout
- Single and double pass doors available
- All working parts are integrated in the profiles creating a seamless look
- Lightweight for ease of operation

INNOVATION AND QUALITY MADE EASY WITH GWS-DRS RAIL SYSTEM

Innovative design, quality materials, and the finest workmanship mean that DRS rails have the features that meet the most demanding conditions. The DRS system offers dry glaze sidelite rails to match door profiles, plus a complete range of bottom rails to meet ADA requirements. This system is available with either a sliding panel closure or a pivot panel closure. Optional floor or ceiling closer and handles allow a pivot panel closure to be used as a pass door.

- On-site size adjustability and glass replacement
- Snap-on covers
- Glass thickness of 1/2-inch (13 mm)
- Standard maximum height 120-inches (3048 mm)
- Standard maximum width 48-inches (1219 mm)
- 1-year warranty

PUREVIEW® GLASS WALL SYSTEM

PureView® offers a winning combination of high quality glass partitions paired with easy and convenient operability. PureView's® high-quality manufacturing standard results in a robust and durable solution that promotes safety and reliable operation. The partition is easy to operate and aligned to the requirements of everyday usage.

Thought through down to the last detail, PureView® can be separated from or connected to one another effortlessly, safely and quickly. Backed by Modernfold's expert servicing capabilities, PureView® installations ensure many years of satisfaction.

PureView® Plus

- Convertible panel for variable egress
- Concealed door closer in top rail
- Over 170 RAL powder coating options
- Foot operated locking options

PureView®

- Double brush top & bottom seals for sound and draft management
- Foot operated face & end panel interconnecting floor bolts for convenience
- Combination of straight, angles, or segmented configurations

IMMERSE YOUR SPACE IN LIGHT WITH HSW-GP SYSTEMS

The characteristic features of HSW-GP systems are the single-point fixings of the glass panels in combination with a conventional track rail profile. The design, featuring a highgrade stainless steel finish and the distinctive flush-mounted attachments, coordinates perfectly with contemporary architecture.

- Provide openness with transparency
- Enhance your functionality
- Ideal solutions for banks, shopping malls, galleries, and more
- Glass designs can be incorporated to provide a tailored look
- 1-year warranty
