

The American Institute of Architects (AIA) Continuing Education System

Euro-Wall Systems Registered Provider Program Summary Handout

Provider: Euro-Wall Systems

AIA Course Number: EWAIACES08

Course Title: Architectural Trends for Wind Borne Areas

Length: 1 Hour

Credits: 1 AIA HSW CE Hour

Description

This course is designed to provide architects with a basic understanding of large opening solutions for wind borne areas and providing examples and solutions for large fenestration openings that provide innovation in terms of design, sustainability, health and safety.

Learning Objectives

By completing this course, the design professional will be able to:

1. Familiarize architects with definitions, capabilities, and usages of large fenestration systems.
2. Illustrate how large operable glass fenestration solutions can be used for sustainable design.
3. Provide solutions on how large fenestration solutions can improve health and safety of building occupants.
4. Provide examples of cutting edge innovative ideas to take into design consideration.

Method of Delivery

The course is offered to design professionals in a lunch and learn classroom setting. The course is presented in Keynote and PowerPoint.

Cost to Participants

The course is sponsored by the manufacturer and is therefore offered to designers at no cost.
