Provider: **Modernfold**

Length: **1 Hour**

AIA Course Number: **IMOD08I**

Credits: **1 AIA HSW CE Hour. 1 IDCEC HSW CEU**

Course Title: **From Concept to Closure: Understanding Operable Wall Solutions**

---

### **Description**

This course provides a complete overview of movable wall systems. Topics include panel types, seals, closures, panel movement, stacking, acoustical control, finishes, and field integration. Ideal for architects, facility managers, and contractors seeking practical guidance on specifying and detailing partition systems.

### **Learning Objectives**

By completing this course, the design professional will be able to:

1. Differentiate panel types and select appropriate construction for performance and design goals.
2. Specify effective seal and closure systems to meet targeted STC/acoustic requirements.
3. Design panel movement and stacking solutions addressing safety, storage, and labor constraints.
4. Integrate finishes, glazing, doors, and ADA requirements into coherent partition specifications.
5. Produce a basic performance specification and layout for a movable partition installation.

### **Method of Delivery**

The course is offered to design professionals in a lunch and learn classroom setting. The course is presented in PowerPoint.

### **Cost to Participants**

The course is sponsored by the manufacturer and is therefore offered to designers at no cost.
