

MAINTENANCE PROGRAM

A maintenance program ensures your space management or fire + smoke protection system remains in optimal working order. Our **Service department** offers the right maintenance agreement to meet your needs.

Depending on product type, we recommend a semi-annual, annual or system specific preventative maintenance schedule. As with any mechanical system, it should be cleaned, inspected, lubricated, and adjusted to sustain proper mechanical system functions, and to ensure safety.

Maintenance Program & Service

A commitment to protecting your space management investment

Service
A DIVISION OF MODERNFOLDSTYLES, INC.

ModernfoldStyles, Inc. is committed to protecting your operable and glass wall investment.

Contact us to schedule service, set up a maintenance agreement or if you have any questions about your system.

OUR SERVICES

Our full-time, factory trained technicians provide exceptional service. They can repair, refurbish, refinish and maintain all the products that we distribute along with other manufacturers' systems.

OTHER SERVICES

WALL COVERING REPLACEMENT

Our **service** technicians can replace the fabric, vinyl or carpet covering to make your operable partition look like new.

TRAINING

We will train you or your personnel to safely operate your space management or fire + smoke protection system.

ACOUSTICAL ASSESMENT

Our skilled **service** technicians will assess your operable partitions to see if the seals are operating properly to maintain the partition's STC sound rating capabilities. We will identify any problem areas and recommend solutions to properly maintain your system's functionality.

SERVICE CAPABILITIES

Our factory trained technicians can perform service on a variety of operable partitions, accordion doors, glass, folding, sliding and bi-fold doors as well as fire + smoke protection systems.

With a combined fleet of installation vans, box trucks, and service vans at the ready, ModernfoldStyles' team of installers, based out of South Hackensack and Cherry Hill, NJ are committed to protecting your space management investments.

We're here to help!
