SUMMARY

SKYFOLD CLASSIC SERIES

The Classic series was developed to meet the acoustic challenges of geometrically variable spaces, from the simple (offices, classrooms) to the complex (auditoriums with sloped or stepped floors).

Exceeding industry standards, the acoustic soundproofing indexes for Classic 51, 55 and 60 ensure privacy and confidentiality are respected from one space to another. The Classic NR model also reduces ambient noise within meeting and conference rooms, increasing the user's comfort.
