

The top new coating for awnings

See it “in the flesh” now in the showroom of a markilux specialist dealer near you.

markilux
The best under the sun

The successful markilux MX-3 model in a Selection MX finish. Freely combine frame colour, cover pattern and front panel with an exclusive innovative coating.

The exclusive way of being distinctive.

Front panel with innovative and exclusive Selection MX coating

markilux designer awnings: as unique as you are. Perfect look in unique colour combinations and innovative surface coatings. Ideal for outstanding architecture and patio and garden design. When the special turns into something very personal: Selection MX – the new awning surface coating.

- + Innovative coatings with trendy metallic colours or metal and special effect lacquers
- + 10 elegant colour combinations (feel free to select other combinations)
- + High degree of individualisation
- + Available for the markilux models MX-3, MX-1 and MX-1 compact

Uniqueness in a nutshell.

Exclusively and daringly different in colour, cover and material
The basic Selection MX range consists of 10 elegant colour combinations. Each one a unique and harmonious composition. Frame colour, cover pattern and the exclusive coating of the front panel profile combine elegantly to form a harmonious whole.
